Blue: relaxation
The serene shade soothes the person wearing it and makes the people around them feel at ease, say researchers at the University of British Columbia. Just consider the setting when choosing a tone, says Lupu. "Midnight blues win at job interviews, while lighter shades make party guests feel comfortable in your presence." Try a punchier tone for a relaxing night out with your friends.
*Her dress with star print: B&B
Sleeveless top: Thea; shoes: Prada
Jelly mules: H&M; Topwatch
Dress: Galbani; sunglasses: Dior
Sunglass hat: Ferris made on site
